As an important part

OF THE CONCEPT, many issues

of OK! are themed

OK! magazine is an intelligent glossy magazine trusted by both stars and our numerous readers. In OK! one can find cover-stories of famous actors who otherwise very rarely appear on printed pages. We are happy to have many stars let us know their life stories. The stars know that we only print verified first-hand information, and we remain true to this principle at all times. An important indicator of the attitude towards our magazine was the unprecedented number of superstars who attended the annual OK! AWARDS 2023 ceremony. As an important part of the concept, many issues of OK! are themed. Our readers can learn the latest news from the world of fashion, beauty industry and travel; through the Guide section they get informed about the most relevant upcoming events in film, theatre and show business. Reports from film sets, relevant interviews with stars, and many other themed materials can be found in each issue of OK!

Our creative search never stops, and we are always open to new interesting ideas!
